PRODUCT: RIGIDIZER 2700

Description: Nutec Ibar rigidizer 2700 is applied to the surface of ceramic fiber blanket by spraying or brushing to give more abrasion resistance characteristics.

Mean Application:

- Hot gases erosion coating in furnaces and ducts.
- Catalytic converter mat edge protection.
- Structural hardening agent for papers on boards.

Packaging: Plastic drums with 25 Kg.

Identification: Label with product name, quantity, lot number, fabrication date.

Storage Life: Without limit (if properly stored)

Typical Physical Properties

-Maximum use limit	(°C)	1482
-Application rate	(m ² /l)	1,9
-Density ...	(Kg/m ³)	1600
-Color		white
